

Vuong Nguyen, Sharynne Azhar, Erin Coots, Neil Dunn, Najeeb Lakhani

Description

EduCare is a central platform that combines student data, academic resources, and other student success applications in a single web page. EduCare maximizes the flow and efficiency of advising practices, helping advisors to engage in one-on-one interactions with the students.

Design

Features

Multitasking

Collapsible sidebars to help advisors effectively switch between applications and resource channels.

Thread

A thread contains advising notes under the same issue. This allows cohesive advising across departments.

Student Profile

Organizes student's information on one page with expandable sections to avoid context switching.
